

Colour Board Game

The Colour game is a non-competitive game that encourages children to use colour words in your target language. The game connects with the 'Shell memory' learning experience in App 2: *The Polyglots at the Beach*.

Before you begin, print and cut out the game board, colour dice and crab tokens. Construct the dice.

How to play

1. Place the coloured crab tokens on the matching crabs on the board.
2. The children take turns to throw the colour dice and move the corresponding coloured crab along the board.
3. Encourage children to say the colour words when the dice lands, and when they move the crabs.
4. The game ends when one of the crabs reaches its shell.
