

Birthday dominoes

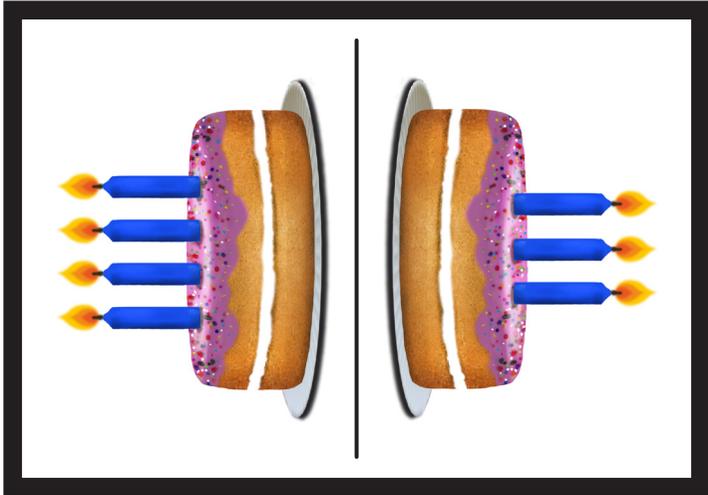

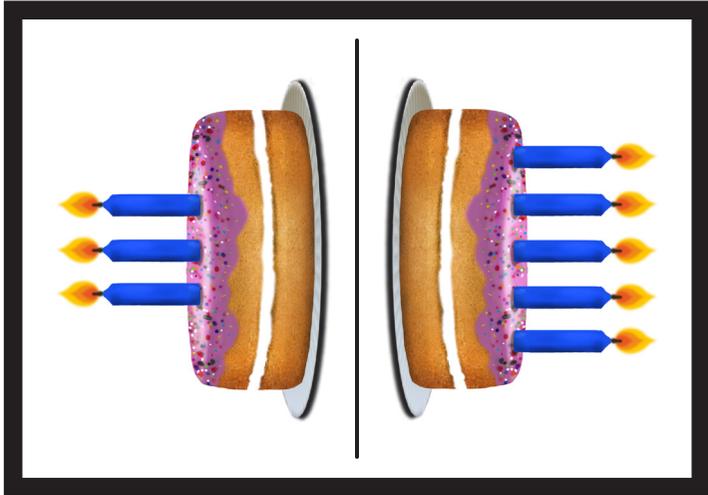

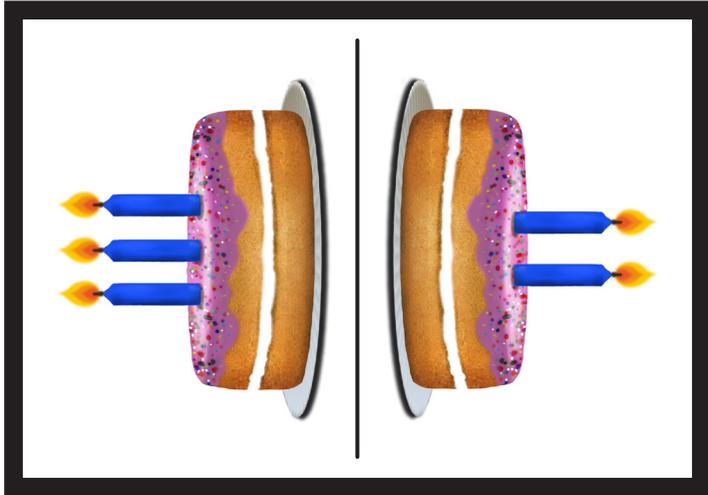

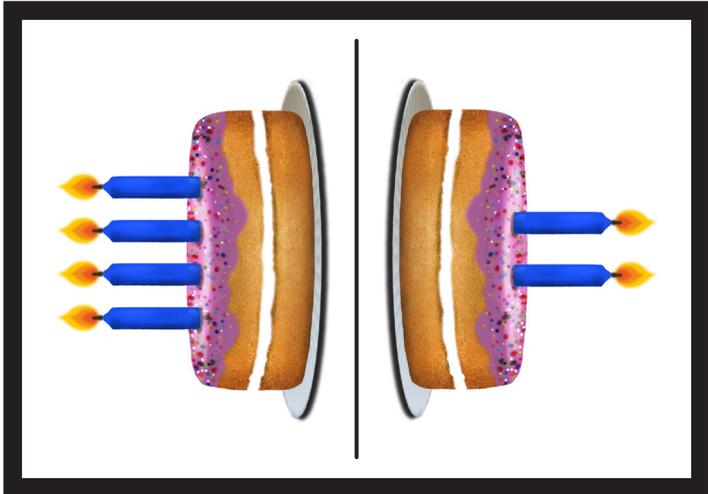

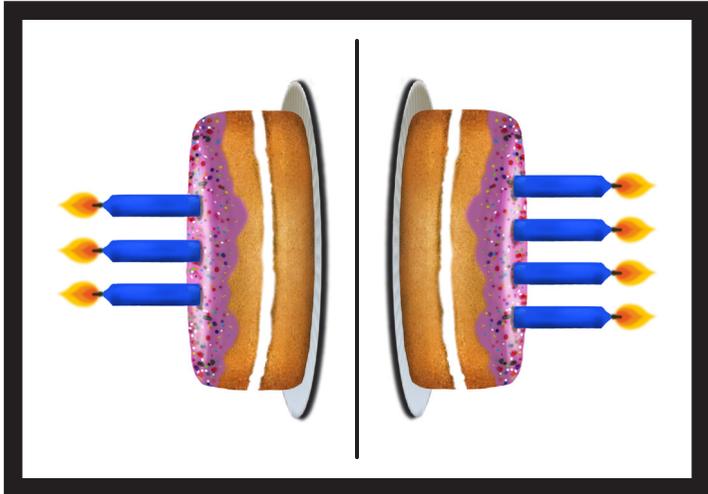

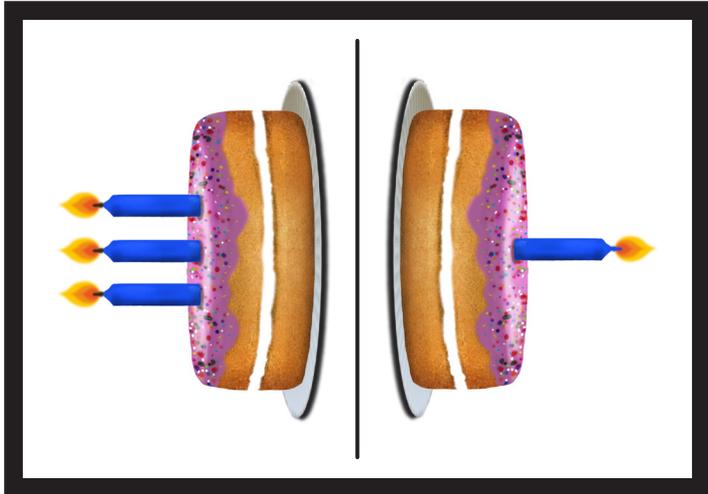

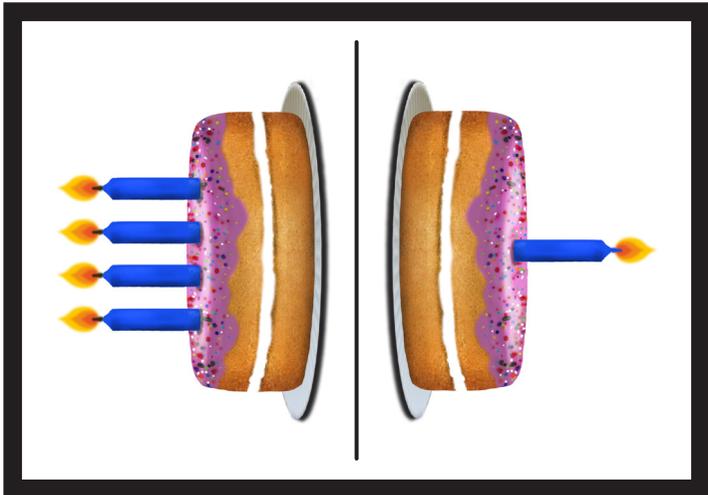

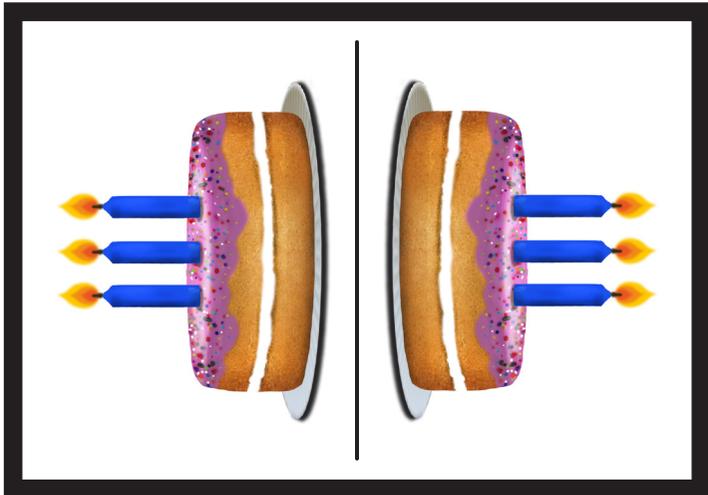

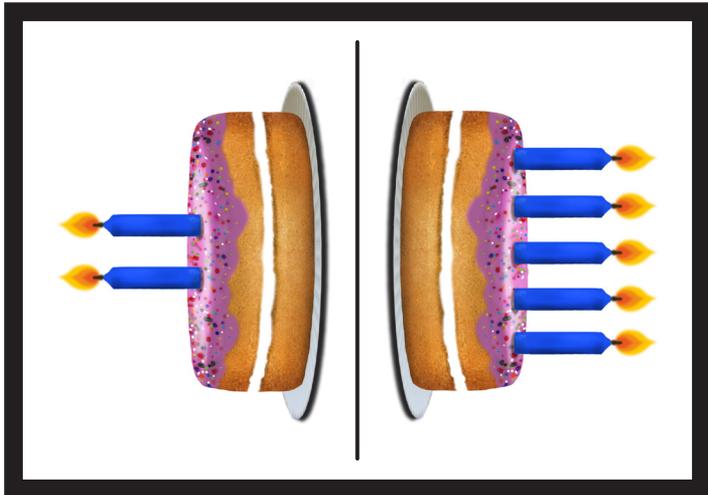

Instructions

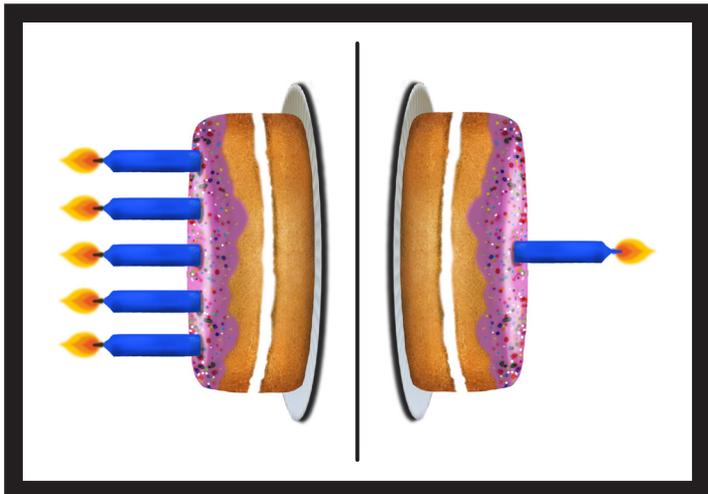

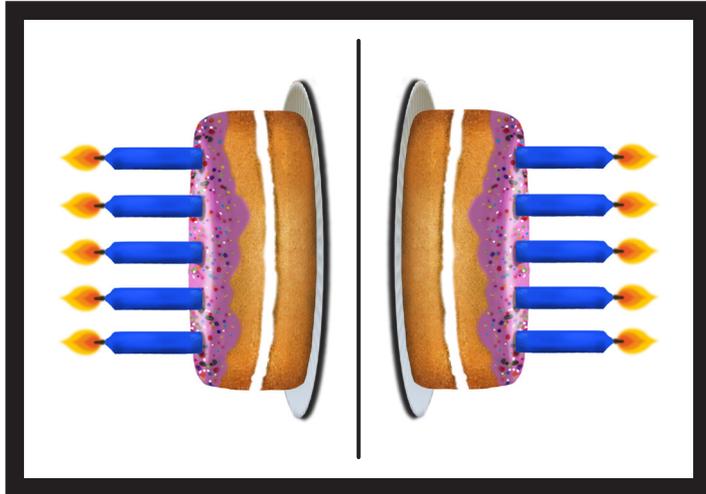

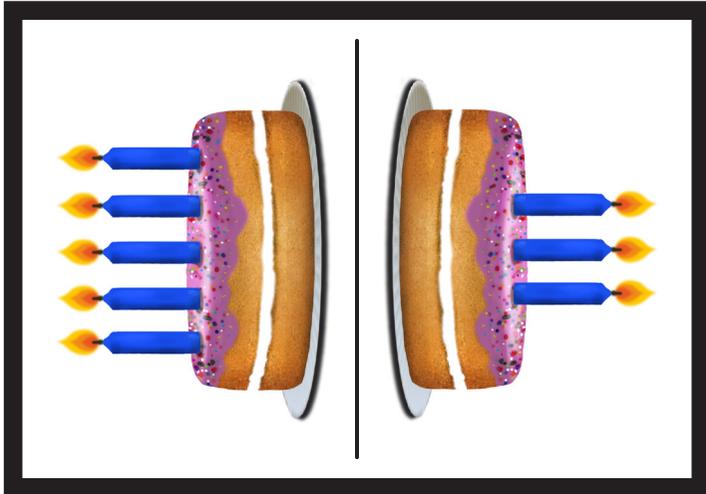

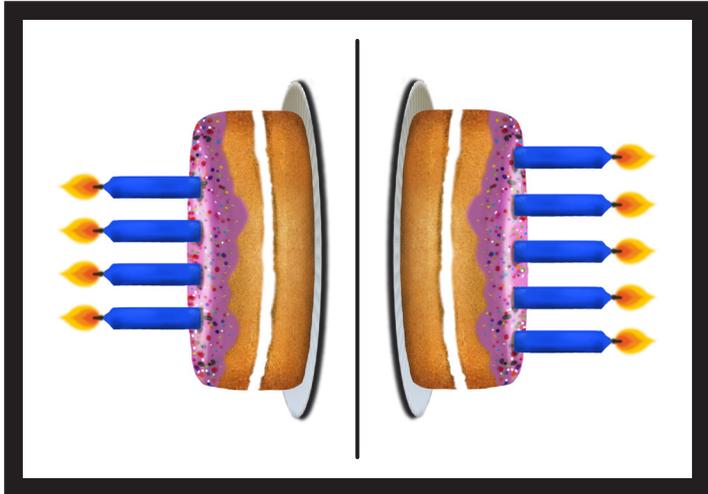

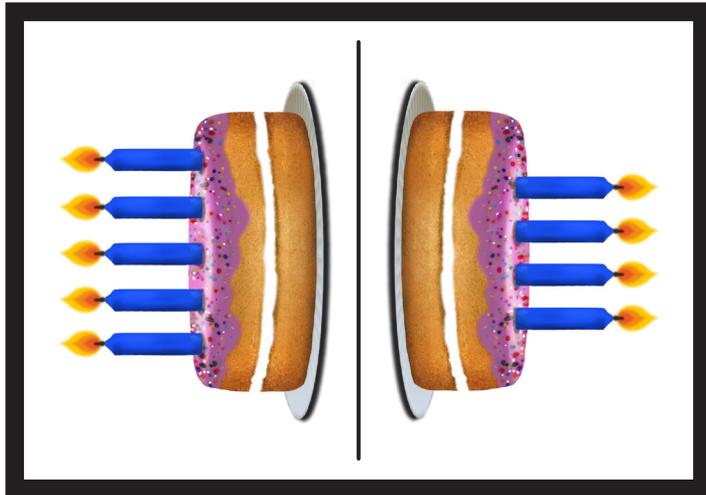

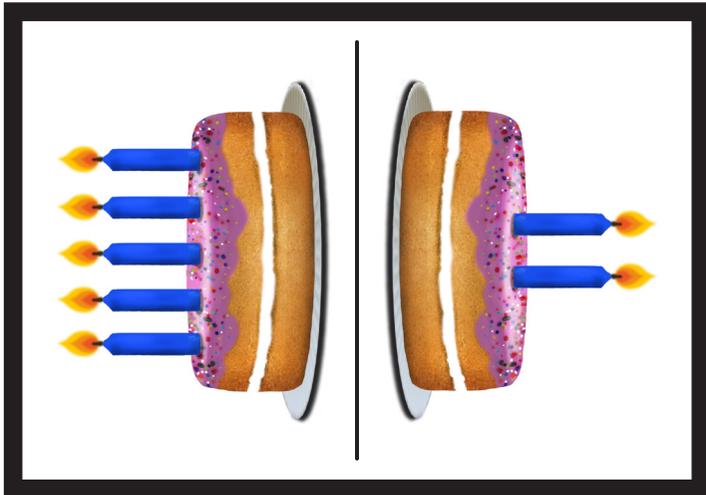

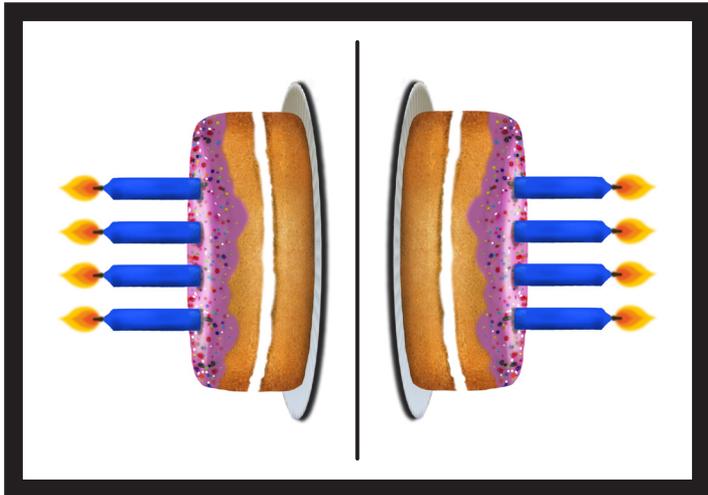

1. Cut out the dominoes and optionally laminate them.
2. As children play with the dominoes, you can encourage them to count the candles on each tile. Children can find matching domino tiles and group them together. They can also line them up end-to-end by matching the number of candles on each tile, or they can play the traditional game of dominoes in a small group.

You can also use the 'Number charts' printable as a refresher for this activity. All printables can be downloaded from the ELLA website.
