About

The Republic of Turkey is uniquely situated in both Asia and Europe sharing borders with Greece, Bulgaria, Georgia, Armenia, Iran, Iraq and Syria. The population of Turkey is 80 million and the capital is Ankara. There are large communities of Turks living outside Turkey notably in the Turkish Republic of Northern Cyprus, Southeast Europe and Central Asia. Australia has a significant Turkish population with the Turkish migration to Australia dating all the way back to the early 19th century.

Turkish is the official language of the Republic of Turkey and one of the official languages of Cyprus. It is the most commonly spoken language of the Turkic language family. The total number of Turkish speakers worldwide is 220 million.

Language

Modern Turkish is based on the Turkic dialect spoken in Istanbul. The predecessor of modern Turkish was the Turkish language spoken during the Ottoman period. Ottoman Turkish incorporated many words from Arabic, Persian and Greek and used an Arabic alphabet. After the formation of the modern Turkish state in 1923, the Turkish language underwent major reforms. In 1928 the Latin alphabet was introduced for written Turkish. The alphabet was varied to meet the requirements of the language, with the modern-day alphabet consisting of 29 letters, with the letters q, x, w omitted and ç, ş, ğ, ı, ö, ü added. Turkish is a phonetic language with each letter of the alphabet representing one sound.

Grammatically, Turkish is not a gendered language. Turkish uses vowel harmony which means that there are rules about which vowel sounds can be used near each other. The basic word order in Turkish is subject-object-verb, for example, 'Ayşe pears ate' as opposed to 'Ayşe ate pears'.

Culture

Turkey is often referred to as a 'bridge' between the East and the West, incorporating both Islamic and European influences. Turkey has a majority Sunni Muslim population with a sizeable Shia community. The cultural landscape of Modern Turkey also incorporates elements from Greek, Armenian, Arabic, Georgian and Kurdish cultural traditions. Despite this diverse cultural makeup, the Turkish people are united in their love of football and food.
